Congratulations on Your Engagement!

One of my greatest pleasures in life comes from creating special moments that leave you feeling known, loved, and celebrated! Whether you're family, friend, bride, groom, colleagues, or a stranger. From start to finish – I've done it all, and I love it.

With over twenty-seven years' experience, I can honestly say that I enjoy every part of the process: dreaming, researching, planning, organizing, creating, and producing -- from Weddings to Dinner Parties to Charity Galas to Celebrations of Life -- any occasion that's cause for gathering.

It would totally be my honor to partner with you and make your vision come to life. I personally handle the various elements of your celebration. Rest assured that you can expect my superior level of service throughout the planning process. My enthusiasm, energy, expertise, knowledge of the industry, high level of integrity, diplomacy, respect and attitude also sets me apart. I have great relationships with my Vendors.

Each of my Clients is unique, so I love to create personal, customized events. I am very organized, and my Clients know that whenever they contact me, I know who they are as well as the key details of their event.

xoxo Nancy

HIRING A COORDINATOR SEEMS LIKE A LUXURY I'M NOT SURE WE CAN AFFORD.

There is a saying "If you think hiring a professional is expensive, try hiring an amateur". There is a lot of truth in that statement. What does it matter that you got a great deal on the flowers if they were horrible on your wedding day? Maybe you found a "coordinator" who was a "great price" but can't seem to return a phone call or e-mail. Where's the "value" in that? When it comes to planning your wedding, you definitely get what you pay for.

The truth is my services can fit into most any budget. I can suggest cost-effective alternatives to bring your vision to life. I have experience working within a wide range of budgets and can show you how to make your money go farther. This service alone can cover the cost of bringing me on board.

WHY SHOULD I HIRE A PROFESSIONAL COORDINATOR?

You're busy, which leaves you very little time to organize your wedding. There are so many details involved in planning a wedding that it can easily become stressful and hectic. Your wedding will most likely be the most expensive party you will host and planning this major project requires experience, patience, education, and a lot of time. You can save time and frustration by hiring me to guide you through the planning process.

I have the knowledge, experience, and quality resources essential to helping you realize your vision by offering creative suggestions, expert advice and cost-saving options.

MY VENUE ALREADY INCLUDES AN ONSITE COORDINATOR. WHY DO I NEED ANOTHER ONE?

Unfortunately, many couples sell themselves short by assuming the venue coordinator will take care of everything that needs to be done prior to and on your wedding day. Being "part of the package" usually means that they will only handle all the responsibilities related to their specific venue. That does not mean that they will find hotel rooms for out-of-town guests, iron a bridesmaid's dress, keep you on track throughout the planning process, monitor your budget or make sure any rental equipment is returned.

They are not responsible for directing your wedding ceremony or rehearsal and may not be able to give you their undivided attention when it comes to your needs while planning your event. I will have a detailed understanding of your plans; from Vendor selections to producing a timeline for the day. I coordinate not only with the food service but with all your team members. Your flowers will be in the right place. The seating cards, cake set, and toasting glasses are set. Your musicians and/or DJ will have had their sound checks and the cues have been discussed, and that every detail has been taken care of on your behalf.

I WANT TO PLAN MY OWN WEDDING. HOW COULD YOUR SERVICES BENEFIT ME WITHOUT TAKING OVER?

I will serve as your Guide and ensure that your vision is realized. I can get you on track and can offer as much or as little assistance as you desire. With years of experience and knowledge of the industry, I can save you time, money and effort – not to mention stress! I do this by meeting with you to discuss your needs then explore your options. I can assist you with your planning from start-to-finish, offer help on a specific aspect, or can serve as your "Day Of" Coordinator on the big day to insure everything runs smoothly. I offer a lot of variety within my services.
